JUST TO KEEP THE RECORD STRAIGHT.

It should not be necessary to say it but lest it be not understood by some, we pause here to state that as a salesman of publicity service our advertising space is open to whoever wants to buy, just as is the carpenter's use of his hammer and saw, and everybody's money looks alike when offered in a business way. And we solicited advertising from all the candidates now in the present run-off.

But when you want to know how the managing editor stands on men or measures you must find it out from reading his editorials—not his advertisements—and if his editorials are not sufficiently plain just ask him.

To forestall the former possibility making the latter necessary, we will add right here that in the first primary we voted for Mrs. Miriam A. Ferguson, George B. Terrell and Joe Burckett.

It is our purpose to do the same thing tomorrow in the run-off, and in the choice between Joe Bailey and Cyclone Davis, we shall cheerfully vote for Bailey as a man who will be a help and not a handicap to Roosevelt and Garner in the task of lifting the country out of the Hoover depression.

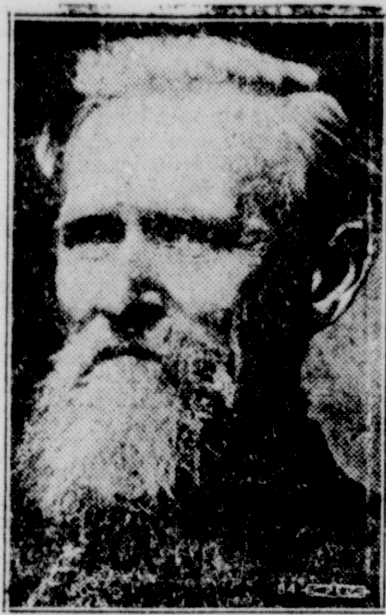

In the language of what we have tried to be, a good salesman, whether of apples, ad space or ideas, "Is there anything else?" —M. E.

At the Tuesday luncheon of the Hondo Luncheon Club, Chairman H. E. Haas read a letter from the San Antonio Chamber of Commerce commending Hondo's radio program over WOAI last week. The Club by a rising vote expressed its appreciation of the program and thanked the local entertainers for their services in rendering the program. RIVAL CANDIDATES FOR CONGRESSMAN-AT-LARGE, PLACE NO. 2.

HIS WORK APPRECIATED.

Sometimes a man's biggest achievements are accomplished in such a quiet way that his nearest neighbor is unaware of the service that has been rendered.

Most of our readers know that Mr. J. M. Finger, along with Earl Boon and Henry F. Buss are doing some kind of free service by acting as an intermediary between the Crop Production Loan Division of the Reconstruction Finance Corporation and those farmers who borrow money to help themselves through the present stringency, but few know that the work is being done so well as to draw recommendation from the Regional Manager.

That credit may be accorded to whom credit is due, we append such a commendation for a special phase of that work.

The Secretary of Agriculture, Acting pursuant to the Act of Congress Approved Jan. 22, 1932, Creating the Reconstruction Finance Corporation, CROP PRODUCTION LOAN OFFICE.

Dallas, Texas, August 22, 1932. Mr. J. M. Finger, Chairman, Medina County Loan Committee, Hondo, Texas.

Dear Mr. Finger: I am just in receipt of copy of your form of remittance for the borrowers in your territory, which is not only unique but it is certainly a far reach-

ing piece of co-operation on your part and I cannot let something of this kind go unacknowledged and without expressing our appreciation.

I hope that your country has had recent rains to allow fall crops and that collections may be far better than was anticipated. Now that the R. F. C. is busy setting up plans for another year's making of loans for crop production and livestock farming, I trust that communities like yours will have such a good collection record that your commendation and recommendations will pass okay down the line.

With all kind wishes, I am
Yours very sincerely,
Owen W. Sherrill,
Regional Manager.

UNEQUAL REGULATION IN TRANSPORTATION CAUSES DISORDER AND CONFUSION

● The instability, confusion and disorder which unrestrained truck transportation has brought about is responsible in large measure for much of the distress in which all business finds itself today. Texas has moved to find a remedy and all concerned in the welfare of this state and its institutions should cooperate in the effort to restore stability and order to our transportation systems.

The Texas Railroads, in these advertisements, have endeavored to place before the people of this state some of the reasons why the existing laws, regulating motor transportation, should be upheld and enforced.

1. The railroads are necessary for the successful marketing of the enormous production of this state, which is used and consumed in every other state in the union.

Uniform, published, non-discriminatory transportation service rates are essential to the orderly conduct and welfare of business.

Unregulated truck transportation inevitably results in discriminatory charges and practices, rebating, unfair and unbusinesslike competitive methods, bringing about losses and commercial insecurity.

The wholesaler, jobber, retailer and local merchant suffer from the unfair competition of truckers and peddlers who, for the most part, are non-residents, pay no taxes and contribute nothing to the community welfare.

The farmer and agricultural producer must have at his command facilities adequate to transport crops and produce which move long distances in large volume, at low cost, by rail.

2. The railroads build and maintain their own roadways, pay heavy taxes for the support of state and municipal governments and institutions, and expend millions of dollars for payrolls, materials and supplies. Railroad workers are substantial citizens, home owners, and valued members of their communities.

3. Rail transportation is the most efficient and economical in existence for the movement of traffic in volume by land.

4. Texas highways belong to the people and are built and maintained at heavy cost. Their use for commercial purposes is a privilege, not a right. They should be kept safe for general use and not prematurely destroyed by heavy trucks.

5. The stability, security and orderly conduct of business require reasonable control and regulation of all transportation agencies.

THE TEXAS RAILROADS

SCHOOL ANNOUNCEMENTS.

School will open Monday morning, September 5th, at nine o'clock. After a short opening exercise in the auditorium, the students will pass to their respective rooms. High school students who have not been classified will report to the study hall. All new students in the first seven grades will please report to the rooms in which they hope to sit. If your past record does not justify your staying in that room, the teacher and superintendent will move you after due conference. Please do not come directly to the office if you are a new student.

High school students, both old and new, will be expected to register on the following dates: Seniors (11 or more credits), Friday morning, Sept. 2; Juniors (7 to 11 credits), Friday afternoon; Sophs (3 to 7 credits), Saturday morning; and Freshmen (0 to 3 credits), Saturday afternoon. If you do not register at the proper time, you may not get a very satisfactory schedule.

Parents living out of the Hondo Independent School District who expect to send their children to school here, should see that they are properly transferred, and that their tuition will be properly taken care of. The superintendent or county superintendent will be glad to talk this matter over with you. The people of this school district are under no legal or moral obligation to school children living out of the district, and the failure of some to pay tuition has caused the Board of Trustees to be less lenient in this matter this coming term.

Football practice will start September the first, and will be under the direction of Mr. Flory.

The Board recently approved a budget for the 1932-33 term, and teachers' salaries, the superintendent's salary, and all other budget items received a substantial cut. In fact, salaries were cut for the second time on the new contracts. Despite rumors to the contrary, we hope to run nine months as usual, none of the teachers have resigned, and we are going to have the best year of our existence.

The support and cooperation the people of this community give their school entitles them to the best that can be had; and, conversely, a good school deserves the support of the community.

SUPT. J. G. BARRY.

MRS. BARRY ENTERTAINS.

One of the lovely late summer parties was Wednesday's bridge given with Mrs. J. Gordon Barry extending the hospitality to a wide circle of friends. There were seven tables arranged for bridge and many bright colored Zinnias were used in decoration.

Mrs. Earl Boon won high score prize, Mrs. Garland Martin second high and Mrs. L. E. Heath the consolation.

The hostess served a delicious luncheon course of molded chicken salad, saltines, olives, prune cake and orangeade.

The personnel included Mesdames O. B. Taylor, Horace Bradley, E. J. Leinweber, H. J. Meyer, W. H. Smith, R. J. Noonan, F. H. Schweers, Earl Boon, Ed. Connevey, W. O. Rothe, Ben Oefinger, Hugo Balzen, Nora Bendele, Earl Starnes, Robert Kellman, Garland Martin, Elsie Warden, Eugene Mofield, M. I. Broxton, J. M. Finger, Charles Monkhouse, L. E. Heath, Alfred Rath, Barnitz Carle, George Windrow, Henry Windrow, Earl Lacy and Volney Boon.

LADIES' BRIDGE CLUB.

Thursday afternoon of last week Mrs. L. J. Brucks entertained the Ladies' Bridge Club and several additional guests at bridge. A feature preceding the playing was the Hondo Salute, radio program over WOAI, in which the hostess' youngest daughter, Miss Gen, had a part.

There were five tables of players. Mrs. L. E. Heath and Mrs. Leo Locke won high score prizes for members and guests respectively. Cut prizes were won by Mrs. O. B. Taylor, member, and Mrs. Charles Monkhouse, guest.

Delectable cottage cheese salad, saltines and iced tea were served at the conclusion of the games.

Those present were Mesdames H. J. Meyer, E. J. Murray, L. E. Heath, Earl Boon, Horace Bradley, Ed. Connevey, Fletcher Davis, Earl Starnes, A. H. Schweers, O. B. Taylor, E. V. Behan, Arthur Rothe, W. O. Rothe, R. J. Noonan, Leo Locke, P. Jungman, Charles Monkhouse, W. H. Smith, F. H. Schweers, and Misses Lillian and Josephine Brucks and the hostess.

MR. AND MRS. FINGER HOSTS.

The night membership of the Thursday Bridge Club were entertained by Mr. and Mrs. J. M. Finger last Friday evening, bridge being the usual diversion. Summer flowers were used as lovely decorations in the home.

Mrs. O. B. Taylor and Mr. L. E. Heath were winners of high score prizes.

The guests were Mr. and Mrs. L. E. Heath, Mrs. Horace Bradley, Mr. and Mrs. L. J. Brucks, Dr. T. B. Knopp, Mr. and Mrs. Earl Starnes, Dr. and Mrs. W. H. Smith, Dr. and Mrs. O. B. Taylor, Dr. and Mrs. H. J. Meyer, Mrs. Volney Boon, Mrs. R. J. Noonan, Miss Frances Finger, Mr. Chancey King, and the hosts.

BAPTIST NEWS NOTES.

Full program at the Baptist church on next Sunday, beginning with the Bible School at 10 o'clock in the morning. Great studies in the Old Testament, highly interesting and profitable to all who are willing to be profited thereby. Come. Preaching at the 11 o'clock hour by the Pastor. Better be on hand; there will be something for you. Crumbs of comfort and handsfull of purpose, strengthening and directing the life. Our pianist, Mrs. George Windrow, will have some interesting music, full of inspiration. The Baptist Sunday school is spending Thursday of this week at ConCan, enjoying a picnic and delightful swim. This, we feel, we owe to the children, an occasional outing.

Sunday night we are again to have our Methodist friends with us. We greatly enjoy their coming as well as our meeting with them in return. We trust very many may decide to be with us on this occasion. We hope to make the meeting specially interesting and profitable. The Pastor will have a special word for the Methodists. We want their singers in the choir. We hope it may be the good pleasure of the Lord to bless the meeting hour. Let us all pray to this effect. Come.

The Pastor.

LUTZ-GRAFF.

A simple but impressive wedding was solemnized at St. John's Catholic Church, at 7:30 A. M. Wednesday, August 24, 1932, when Miss Evelyn Theresa Graff, daughter of Mr. and Mrs. George Graff, became the happy bride of Mr. Maurice Lutz, son of Mr. and Mrs. John Lutz of D'Hanis. Rev. John Gerbermann officiated at the nuptials. St. John's was beautiful with floral adornments of pink and white summer flowers, as to the bridal music the bride and groom entered, preceded by their only attendants, Miss Hilda Lutz of San Antonio and Mr. Fritz Lutz of D'Hanis.

The bride was lovely in blue silk crepe with white hat and accessories. She carried a white prayer book adorned with a shower of orange blossoms and white satin ribbons. The bridesmaid wore peach silk with white accessories.

Following the ceremony the bridal party and their immediate families were served a sumptuous wedding breakfast at the home of the bride's grandparents, Mr. and Mrs. Joe Mechler.

The young couple will make their home near D'Hanis where the groom is engaged in farming. This paper extends best wishes to the happy pair.

ARLEN MIXES LOVE WITH ADVENTURE.

Stephen Roberts, recently signed Paramount director just recently completed his first full directorial assignment in the production of "Sky Bride", which comes to the Colonial Theatre this Friday and Saturday.

"Sky Bride" is a modern story of aviation motivated by a gripping theme of love and adventure, in which Richard Arlen, Virginia Bruce, Jack Oakie, Charles Starrett and Robert Coogan play the leading roles.

The story of "Sky Bride" has a rich melodramatic flavor. Arlen as a stunt flyer for an air circus, goes stale after a crack-up that killed his partner. He is taunted by another flyer as being "yellow". This stings him into a desperate effort in which he saves the life of Robert Coogan and also wins the admiration and love of his sweetheart, Virginia Bruce.

Director Roberts is a former Army aviator and did stunt and air circus flying after the war. Since 1922 he has been a scenario writer and director of short subjects.

Next week, Sylvia Sidney and Fredric March in "Merrily We Go to Hell".

TO OUR SUBSCRIBERS.

In addition to increasing our postal rates on mailing our papers about 25 per cent, the Hoover scheme for relieving the depression compels the post office to charge us two cents for every notice of change in address it delivers to us. You can send us a notice on a 1c postal card and not notice it, but a 2c charge on us will soon aggregate a burdensome sum to us, so we beg of you to not leave it to the post office to notify us of change of address but do so yourself as soon as a change is made. Postmasters are asked to send no notice until several undelivered papers are accumulated and then only one. Thanking you in advance, we are,

AIN'T IT JUST TOO BAD?

The editor of the Medina Light should beware of "strong meat"! He tried to swallow Hon. Fred W. Davis' "Reason for Ferguson Support," as published in the last issue of our FARMING, and behold his regret!

Hear him, speaking editorially in the current issue of The Light:

"In the August 1st issue of Fletcher's Farming, the Hon. Fred W. Davis vents his spleen on the Sterling administration."

New ain't that just too bad! Knowing Fred Davis, as we do, we know it is just not in him to be so malicious towards any one—know The Light man has done him wrong! And being somewhat of an authority on "spleen" ourselves, we are convinced that what spoiled The Light man's taste was bile from his own gall-bladder that came up with his regurgitation of meat that was too strong for him.

But follow him—
"—and tries to give some reasons for supporting the Ferguson gang. He starts out fine, like most others who want to get a bitter dose down your gullet but ends in a rather questionable attitude. He says we should let hatred and such not enter into our reasoning on the political situation, but be sweet-spirited. Good! We believe in that, too."

Too bad again!
To a weak digestion for mental food, he adds a weakness of spirit that keeps him from practicing that "sweet-spiritedness" which he says is "Good" and he believes in, for he proceeds at once to belittle in practice what he preaches in words.

Hear him:
"But open your school books and study them for a few minutes. Do they inform you of an honorable man who is asking for another opportunity to serve the people, or do they show you that a certain individual was found guilty of crime and expelled from office, and forever barred from holding office in this state, but now is trying to hide under the petticoat of his wife, and ride back into office again? It doesn't take hatred to call people's attention to these facts—just history that's all."

That depends on whether a "hater" wrote the history or whether the history is quoted for a "hateful" motive or both.

Does the history from which you quote tell you that the "individual found guilty" was called into jeopardy a second time and impeached on certain charges by the same legislature that had previously rejected the same charges when preferred by another, thereby depriving him—in the spirit if not the letter of that ancient law that guarantees a man safety against being twice jeopardized for the same offence—of his right of protection?

We had the personal assurance of the man who first preferred the charges that that is the true history as that phase of the matter.

Does your history tell you that when the same charges upon which he had been impeached and an irreparable injury from which there was no appeal had been done to said individual, and when the said charges had been made the basis for criminal indictments in the Travis County District Court, they were thrown out of court for want of sufficient evidence to establish a violation of law?

If not, your history has not been correctly written; if fully and correctly written it was not correctly quoted.

thing.
And here is a bit of history heretofore not written.

Before this writer had ever heard of Jim Ferguson we heard a man boasting of having helped steal the nomination for Lieutenant Governor from one H. Bascom Thomas.

That man was a member of the Senate that crucified Jim Ferguson; he was one who having been a friend (?) to him, like a cowardly rat that leaves a sinking ship, deserted his friend in the hour of storm; and whether or not the rest of the Senate at the time were of his own kind, he was a leader among them!

Paste that in your history; and lest you taste of spleen again when you try to digest it, just remember this bit of logical inference—the man who will boast of stealing a Lieutenant-Governorship will not be above robbing another of the Governorship when he deems it to his own profit.

In his impeachment Jim Ferguson was the victim not of his criminal misdeeds but of crooked and cowardly politicians, instigated by the mad-dened hatred of that most dangerous thing this side the gates of hell—an infuriated mob!

We moved as a disinterested observer about and among them somewhat at the time, breathing the poisoned atmosphere in which they thrived, and we know this is a fact.

But our friend, The Light man, is as unfortunate in trying to deal with the logic and facts of an argument as he is in quoting history.

Without differentiating between giving friendly counsel to farmers to avoid an over-production of one crop to the detriment of another and a tyrannical display of military force in interference with the individual's lawful management of his own private affairs; and "in many instances," seeming to be utterly oblivious to the significance of the term, "in-many-instances," he proceeds:

"Part of his reasoning is too glaring to even fool a baby, it seems to us. In criticizing Sterling for placing the East Texas oil field under military rule, he argues that you should let all the oil flow that they can and want to. Yet he will argue that the farmer should not allow over-production by raising too much cotton, etc. If we should hold down the production of cotton, why not hold down the production of oil? In his caterwauling over this oil proration, he worries about the extreme cost of the gas since the wells were shut down, comparing the price of other products. He says it takes in many instances, a bushel of wheat, nearly two bushels of corn and more than two bushels of oats to buy a gallon of gas—one and one-half pound of butter, four to eight pounds of cotton.' We would like to know what these commodities are worth in his country? We see cotton is worth around five cents so that would make his gasoline be worth from 20 to 30 cents per gallon. Pretty high, seems to us. Butter here wholesale is fifteen to twenty cents, one and one-half pound at fifteen cents would be twenty-two and one-half cents per gallon for gas. Corn has not sold below twenty-five cents, so that would be nearly fifty cents for gas. We haven't been asked that much here, yet. He mentions several other articles, but why go on? This stuff is all politics. Not a word of truth in it and put out solely to fool the unthinking. If the people are big enough fools to believe such rot, they deserve to be peoned or made slaves for the rest of their lives."

Since any man of average intelligence can, as Mr. Davis has done, figure out for himself in just "how many instances" gasoline has cost himself so much of any given commodity at any given time or place, it does not become necessary for any one to "believe such rot"; he can and doubtless does know for himself, and is in no fear of the curse to peonage and slavery to which The Light man, in his sweet-spirited aversion to hatred, would condemn him.

And if, after figuring out the exchange value of his product in gasoline, a man who wants to be "sweet-spirited" finds that in "no instance" has his gasoline cost him as much as Davis says his has, instead of accus-

ing Davis of political slush without "a word of truth in it" and designed "to fool the unthinking", he will think how lucky he himself is to get more for his produce and buy his gas cheaper than Davis has been able to do.

Ain't it just too bad that one who believes as The Light man does, that it is "Good" to be "sweet-spirited" should be so unfortunate to one who has been less fortunate than himself in buying gasoline?

We quote The Light's concluding paragraphs here for the dual purpose of leaving the logic and the "truth" of his argument to those East Texans who, if their votes mean anything, do not seem to agree with him that proration has been an unmixed blessing; and if there has been any deviation from the truth for an unbiased public to determine who's the liar; and in the meantime, hoping that his friends, the goat men, may be spared a similar humiliation and annoyance to that visited on the oil people of being told by Jelly Pelly Jake and his army with banners and bayonets just how much hair they may cut from each goat and how much they must leave on them for the sake of "conservation of our natural resources", a la the Light man's logic.

Hear, ye, him:

"In the state control of this East Texas oil field, we find that while the gas to us was advanced a few cents, to the producer it was advanced many cents. Besides those who were just common, weak folks before, getting nothing out of their wells which flowed as much oil as others that were paying their owners a dividend, have since the state control been receiving not a few cents advance, but nearly a dollar per barrel—the little man receiving just as much as the big fellow, and his well allowed to flow just as much, too. Is that a crime? We are sure if our goat men were getting 75 cents a pound for their mohair they would not worry, even if the price of the manufactured product to the consumer was three times as high as it is now, would he? Well, what is sauce for the goose should be sauce for the gander. If we can control the price of our commodities so all can get a fair price, and sell it, why let's turn the whole United States Army loose on a profitable scale

where all can see a profit in what they do.

In conclusion, let's confine ourselves to the truth, but if you must tell a falsehood be sure and tell one that it will require some work to disprove, not like the foregoing quotation."

Out of the goodness of our heart and in the hope that our Light friend may have better luck on a rereading thereof, we are reproducing Mr. Davis' article and trust that when he tries to swallow it again it will be less disturbing to his gall bladder!

CANNING TAKES A SPURT IN FALLS COUNTY.

There are 174 steam pressure cookers in use in Falls county now as compared to 65 last September, and up to July 1st there had been reported 38,843 containers canned by 221 home demonstration club women. Since 13 of the cookers are club property a total of 234 women have been able to use these at least twice per month. Help in providing the family food supply has been extended 121 families outside the clubs by 176 club members, says Miss Onah Jacks, home demonstration agent.

It pays to keep your eyes on The Anvil Herald's advertisements; they offer you money-saving opportunities.

A word that all too often expresses regret for things we have done in the past. Particularly, in financial matters. If I had only used better judgment—"If I had only saved"—IF—IF—IF.
But groans won't help matters any. The past is past. Forget it. Look ahead with a smile and when you again have money to spare, seek the counsel of those who are experienced and reliable.

The Farmer Holds Both Ends

The world has lately just found out that agriculture is the route on which its real success depends. Somehow the farmer holds both ends. Unless the farmer has success all other lines get in a mess. From congress now to president. To help the farmer they are bent. The Hondo State Bank has seen this trend. Has always been the farmer's friend.

No. 1.

Hon. Fred. W. Davis Gives Reason for Ferguson Support.

Now, that we have entered the second primary, let us all resolve to dispassionately present our views, rather than passionately present our hatreds. The party who wishes the welfare of a state to be determined not by sober judgment but in a spirit of anger is not worthy of the people's confidence and insults their public motives. The intelligent voter will put principles first and personalities last. Persons are but incidents in government. They soon strut their brief career upon the stage and are swept away by the flood of years. Principles are as eternal as human relationships. If they are kept pure and sound, government will write its history in letters of gold. If they become impure and unsound they will lead ultimately to ruin. It makes no difference whether a civilization goes wrong because of hatred, prejudice, ignorance or cowardice, the result is the same.

Our public state life is too complex for one to go into all its details. I am supporting the Fergusons for the following main reasons:

From the very beginning they have presented a clear cut declaration of principles which are in harmony with former declaration. On the other hand their present opponents, (don't forget there are two of them), have not offered anything—but generalities—except in a half-hearted way they are belatedly endorsing some of the Ferguson principles. Besides this, instead of being in harmony with their former position they are to a large extent, in direct repudiation of them. There is, however, one noted exception which will be mentioned later.

The planks of the Ferguson platform are not only definite and understandable but they are sound in prin-

ciple. I shall mention only those of greatest fundamental import. Who could be against giving the owners of homes a period of two years in which to redeem them in case of foreclosure? All who vote against the Fergusons in this run-off vote against this plank. It is safe to say that the opposition do not endorse it because it has been extensively discussed in this state and is now the law in a large number of our states, yet for the last six years they have done nothing about it. We all know the dark, sinister shadow of foreclosure hovers over a majority of the homes of this state. This is especially true of the rural communities. If we fail to take every legitimate step possible to save the homes of this nation we may blame ourselves when chaos reigns.

Governor Roosevelt in his acceptance speech at Chicago said we must refinance the home owners, the farmers and ranchmen of this nation, giving them a long period of years to work out of their difficulties at low rates of interest. This is in harmony with two Ferguson planks, because it means to stay execution of foreclosure and allow a lower rate of interest.

Who is opposed to the Ferguson platform plank placing the interest rate at 6 per cent? Naturally, the money lender is, and I do not blame him, speaking strictly from a competitive business standpoint. But we all know that 6% for money is a liberal return and more than most businesses can pay. The founders of our government compromised with the long established prohibition of all interest

HON. FRED W. DAVIS.

charges by providing the government should furnish the money of the nation and regulate its value, or interest rate. They never intended it to be an arbitrary matter with money lenders. The interest plank is a step in the right direction.

The economics involved in the Ferguson platform relating to oil and gas is found in this thought—"It is but fair that those who buy gas, oil and gasoline at retail should receive part of the profits of those who sell." Why should machinery stand idle thereby raising the cost of production which must be charged up to the consuming public? The public is entitled to the benefits of cheap production up to the point of consumptive needs and any rule to the contrary violates economic justice and enforces and maintains a monopoly. If we produce an abundance of cotton, corn, wheat or what not, economists and politicians say it is too bad, but according to the laws of economics you must suffer low prices. But when we have so much oil it can be produced for almost nothing we put the soldiers between that abundant cheap oil and the consuming, down trodden public. Let the voters in general and producers in particular ponder the following:

"It takes, in many instances, a bushel of wheat, nearly two bushels of corn and more than two bushels of oats to buy a gallon of gasoline. Measured in other products it takes one and one-half pounds of butter, two and one-half dozen eggs, two to four gallons of whole milk at wholesale prices, from four to twelve pounds of beef and pork on the hoof, four pounds of wool and from four to

(Continued on last page)

PROTESTS TREATMENT OF BONUS PETITIONERS.

Terming the treatment of American citizens who assembled in Washington seeking the soldiers' bonus, "anarchy under the guise of government", Maury Maverick, militant political leader of Bexar County, sent a telegram to President Hoover, on August 3, protesting against the attitude of the administration and of the army.

Mr. Maverick is a member of the well known Maverick family, which has lived in Texas for one hundred years. He is a World War Veteran and a champion of free speech, of free press and political liberty. He came into prominence several years ago when he fought the Bexar County political machine opposing bogus poll taxes and bond issues. He was elected tax collector where he promptly carried out his campaign promise to purge the poll lists of aliens and stop the indiscriminate issuance of poll taxes. He has just been re-elected to office by an overwhelming vote.

Maverick went to France with one of the first contingents of American troops. He volunteered immediately on the declaration of war and was commissioned a lieutenant. All officers and non-commissioned officers in his command were killed. He was twice shot down in the Argonne and left for dead on the field but survived; was found by members of his company and carried to the lines; spending many months in the hospital before he was able to be invalided home. He received a citation for gallantry in action and was awarded the Purple Heart and other honors.

Mr. Maverick's telegram to the President, which is self explanatory, follows:

"The murder by Washington police of unarmed veterans who are American citizens is a blot on American history and the subsequent use of military force in driving these citizens out of Washington is anarchy under the guise of government—a direct violation of their constitutional rights. An unsupported charge that communism is rampant in the ranks of veterans is irrelevant in any event but is further a silly effort to cloak your own inhuman policies in failing to deal effectively with unemployment and suffering among the American people. Just what if anything do you intend to do for the millions of unemployed? Reference is hereby made to the Boston massacre, the situation being so similar. This message is called forth by what has happened in Washington and by the remarks of Brigadier General Howland before the Legion at Corpus Christi August 3. I should like to know if the general's conduct is officially approved by you. The people will never tolerate military dictatorship in America. My respect for your office prevents a more complete expression of my sentiments.

MAURY MAVERICK."

MRS. MIRIAM A. FERGUSON.

HON. FRED W. DAVIS GIVES REASONS FOR FERGUSON SUPPORT.

(Continued from first page.)

eight pounds of cotton to buy a gallon of gasoline. If one has good sheep or goats they can, maybe, get the equivalent of two to three gallons per head for them. The grower of melons is lucky if he can get enough out of two 30 pound melons to buy a gallon of gasoline. If there is a market at all the tomato grower must sell forty pounds of tomatoes to buy a gallon of gasoline and the onion grower must sell a similar amount. Prices of farm products are so low they bring ruin to millions, while the prices of gasoline and oil are maintained with the bayonet in violation of the constitution and they brag about it and say it is honest, responsible government.

Now what has the opposition offered? Principally a song of hate with a refrain of obscenity. They say they are opposed to road bonds, now. But why now? Their answer is that times are too bad. You who followed them two years ago when they switched in and out on the road bond question until after election and then used every pressure possible to put the proposition over are doubtless glad they failed in their purpose. If so give Jim Ferguson most of the credit. Now, get this, if bonding is the best economic method of building and maintaining roads, the poorer we are the greater the need of bonds. It is ridiculous to say we must violate a sound principle of business because we are poor. The truth is they did not believe that their road bond program was sound, but it favored certain friends and they thought maybe the people could stand and would stand for it two years ago. They know better now and that is the sole reason for their change.

They say they are in favor of paying the road bonds of the counties out of the gasoline tax. And Sterling is so enthused he is willing to call a special session of the legislature for this purpose. Yet, after this very proposition passed the legislature over the protest of his leaders, he vetoed it. The reason for this change is the same as in the road bonds, they want and need votes badly.

They say they favor the homestead exemption amendment. Well why not? It is already before the people and is sure to pass. But the Fergusons favor saving expenses by coordination and consolidations and so shifting the burdens of taxation that ALL ad valorem taxes may be eliminated. I want to see the time when all who own homes can enjoy the fruits thereof with no one to make them afraid. There is nothing our government could do that would strengthen the failing hearts of the people as much as to remove forever from the home owners the fear of the tax gatherers.

There is one proposition upon which the Sterling crowd has remained consistent. They are still for government by appointment instead of election. They don't want to have to go to the trouble of fanning up the hatreds of the people every two years. The voter is not interested in the administrative and ministerial divisions of our government, such as Secretary of State, Comptroller, Treasurer, etc., except as to competent, honest accountings. But that part of government, (most of it of recent origin) that deals with the every-day affairs of the voters is of chief concern to them. All these offices wherever practicable should be elective. The party who is not willing for the people to select the officials who rule over their business relations wants to control the people's affairs either for selfish purposes or he does not believe the people are capable of self-government and must have arbitrary rulers.

The Fergusons are accused of allowing road contracts unfair to the people, while on the other hand the

counter charge is made that there is a huge sum unaccounted for by the present administration unless they too have paid big prices. But whatever the merits of the charges it is water that has already gone over the wheel. How does each side answer as to the future course of highway matters? The Fergusons say let the people elect the Highway Commission, while the Sterling-Moody crowd after admitting they were wrong on road bonds and the payment of county road bonds out of the gasoline tax, say just leave it in our hands, we don't believe in election. Which answer do

you prefer?

The Fergusons propose to let the people run their own government by means of the ballot and they propose real tax reductions. I am therefore recommending their election in August.

FRED. W. DAVIS.

The Mount Pleasant plant of the Texas Milk Products Co. handled nearly 1,000,000 pounds of milk in April and exceeded a million pounds in May.

Home-grown hen rations are common but home-grown chick rations are rare. Mrs. Morris Anderson in Hemp-hill county comes along with a demonstration that shows a home raised, home mixed ration is satisfactory. Out of 870 hatched she had lost only 8% at six weeks, and of 600 hatched later she lost only 3%. She feeds all the clabber they will eat and 300 pounds cracked milo and wheat, 50 pounds cottonseed meal, 3 pints cod-liver oil, 1 1-2 pounds charcoal, and 3 pounds salt. It costs 95 cents per hundred.

C. W. Gilliam was down from his Utopia ranch yesterday wearing usual bland smile and telling of other "smiles" in a manner most enticing. We haven't figured out yet whether he was merely patriotically boosting for a home "enterprise" or whether he was trying to pull a pesky Republican trick to lure all the Democrats to the mountain wilds and make them forget the election. Beware of Republicans when they come bearing smiles.

ARE YOU A PROGRESSIVE TEXAN?

Progressive Texans is an organization formed to develop the industries of Texas and help our manufacturers to help themselves. A manufacturer in your community means employment to your people and the consumption of the raw materials of the farmer who has worked under tremendous handicap due to the fact that our people would not buy his products.

We want you to join a club composed of the citizens of your own community pledged to the following:

1. To aid Texas agricultural and industrial progress by encouraging the use of Texas products.
2. To learn more about what products are manufactured in Texas and their uses and values.

By creating a demand for the products of your manufacturers, you are solving the greatest problem of manufacturing in Texas today, and that is the sales problem. It is unfair to ask a merchant to stock a product you will not buy. He will gladly stock them if you want them.

By joining the Progressive Texans at a cost of \$1.00, you are pledged to build up your own community and develop Texas. This entire fund will be used to better acquaint you with your local manufacturers and those of your state. TENNANT TO VOTE FOR C. V. TERRELL

Man Who Ran High Third to Cast Ballot for Incumbent

Overwhelming victory is assured Railroad Commissioner C. V. Terrell, his supporters believe, with the recent announcement of Roy L. Tennant, that he would cast his vote for Mr. Terrell in the run-off election.

Mr. Tennant opposed the present chairman of the railroad commission in the first primary, piling up a high vote which carried him to third place in the final count. Mr. Terrell is running for his second full term as a member of the commission. He carried over 155 counties with a total ballot that gave him an overwhelming lead over his closest opponent.

"I would like to express my sincere appreciation to Mr. Tennant for his announcement that he would vote for me in the run-off," Mr. Terrell said as soon as he read Tennant's statement.

"I want to assure Mr. Tennant and the great number of voters who supported him in the first primary that when I am re-elected, I shall continue to conduct my office with the same high purpose that I have followed in the past."

In his statement, Mr. Tennant said that he did not want to try to dictate to his friends but rather than give the impression of riding the fence, he was declaring publicly that his vote would go to Mr. Terrell.

During the latter part of the run-off campaign Mr. Terrell announced that he would make at least five speeches at strategic points over the state. More will be made if his duties at Austin permit. He will confine these addresses to outlining the functions of the railroad commission and the vital part it plays in the operation of the state government.

BUMBLE BEES TWILIGHT LEAGUE CHAMPIONS.

Coach Barry's Bumble Bees were crowned champions of the Twilight League, Tuesday, when they defeated the Blues in the final game of series, which wound up the League baseball season for 1932.

The Bumble Bees, managed by J. G. Barry, composed of mostly school boys must be given credit for their consistent playing throughout the season. Mechler who pitched practically all of the games for the Bees showed up very favorably on the mound and will be a favorable prospect for next year's high school team.

The League games created quite a bit of interest among the local fans and furnished good entertainment for the working people, as all games were played after working hours.

It also developed some of the players into fair players who will be good prospects for both the town and high school teams.

 A Happy Home.
 "Return to thine own house, and show how great things God hath done unto thee." Luke 8, 39.
 Yes, the home is the first place where our religious life should be born. In the outside world we may seem to have religion when we have none; but our home life tests whether our religion is genuine or a sham. What makes a happy Christian home? Not necessarily a beautiful mansion, lavishly furnished. In such places wretchedness has often dwelt. A happy Christian home is a place where the Gospel of Jesus is put into daily practice. It is a home where the motto: Christ Is The Head Of This House is true to life, where the heads bow to Him in prayer and praise, where His will is sought and is carried out in love and devotion.
 There will be no service next Sunday at our church. The Sunday school will also be omitted.
 On Sunday, September 4, regular Sunday school will be held beginning at 9:15. The Bible Classes will also meet at that hour. At night beginning at 7 o'clock the Luther League will hold its regular September meeting. There will be night service at 8 o'clock conducted by a neighboring pastor.

MISCELLANEOUS SHOWER.
 A miscellaneous shower was given for Miss Evelyn Graff, bride of the month, Wednesday afternoon, August 17, at 3 o'clock at the home of Mrs. Joe Mechler. The rooms were decorated in orchid and white. To the strains of the wedding march, Miss Graff, who wore a dress of orchid eyelid embroidery, was led to her chair by Miss Elizabeth Nester, daughter of Mrs. Edwin Nester, who wore white dotted swiss organdy. Miss Kathrine Graff then read the following toast to the bride:
To Evelyn.
 Soon we'll hear the sound of wedding bells
 Ringing out loud and clear
 Which will tell us that the wedding day
 For Maurice and Evelyn is here.
 Your friends have gathered here today
 To show their love for you;
 So please accept each little gift
 As a token of love most true.
 We wish for you much happiness;
 May misfortune never come your way.
 But may health, contentment and gladness
 Brighten your life day after day.
 Little Miss Nester then presented the honoree with many beautiful and useful gifts. After everyone had inspected the presents and Miss Graff had expressed her thanks to all, refreshments of chicken sandwiches, white cake and iced tea were served to about 70 guests.
 The hostesses were Misses Josie and Emelia Mussman and Ruby and Cora Rieber.
LEAGUE ENTERTAINED.
 Mr. Chester Stiegler entertained the Luther League with a lawn party at the home of his parents, Mr. and Mrs. Louis Stiegler, Friday night, August 19th.
 Many interesting games and contests were enjoyed. In the contests Misses Elsie and Hester Schuehle won prizes for the girls and Messrs. Melvin Stiegler and William Heyen won prizes for the boys.
 Punch was served during the contests and later in the evening ice cream and cake with pink and white mints in pink mint cups were served. Those present were Mr. and Mrs. Louis Stiegler, Mrs. Amy Frerichs, Misses Mildred Frerichs, Alice Muenchink, Dorothy Grube, Irene Mechler, Irene, Elsie and Hester Schuehle, Elvera Schweers and Irene Haass, and Messrs. Robert Brucks, Marvin Muenchink, Melvin Stiegler, Hugo Schweers, Freddie Grube, Milton, Edgar and Floyd Mechler, Ervin Schuehle, Walter Schweers, William Heyen, Merrill and Chester Stiegler.

PREVENT TERRACE FAILURES.
 Farm terraces sometimes fail for lack of maintenance. A little work each year with a plow or terracing instrument keeps a terrace up to the necessary width and height. Seeding to grass will prevent the erosion of embankments at sharp bends caused by the cutting action of the water. Preventing the concentration of water just below a terrace in furrows, left after construction will often stop the formation of gullies between the terraces. This form of erosion between terraces often causes the channel to fill with soil during a single rain, causing the overtopping and breaking down of the terrace. Where water concentrates in a natural depression it may be necessary to seed the depression to grass. Burrowing animals, large cracks that develop in dry periods, and low places in the top of the terrace caused by dragging farm machinery across often cause serious breaks that can be avoided by early repairs.

Bumper corn crops in Texas will insure an added impetus to the feeding of Texas-bred feeder stock on Texas acres, according to Frank P. Holland, Jr., president of the Texas Breeder-Feeder Association and director of the State Fair of Texas in charge of the livestock department. Arrangements have been made to hold the third annual Feeder Show and Sale during Beef Cattle Week at the 1932 State Fair of Texas, Mr. Holland has announced.
 Despite a year of unfavorable business conditions particularly with ref-

erence to foreign trade, approximately five and one-half million bushels of grain were shipped from the port of Houston during the 1931-32 season which closed June 30. The destinations for most of this grain were the ports of continental Europe. The transportation of this amount of grain involved the use of 74 vessels which flew the flags of Great Britain, Germany and Sweden, in addition to those sailing under the stars and stripes. Wheat by a large margin constituted the principal grain shipped overseas from Houston, the

total being 4,019,017 bushels. Other grains exported included kafir 674,263 bushels, milo 578,648 bushels, and oats 122,830 bushels. All of this grain was handled at and shipped from the public grain elevator on the Houston Ship Channel which is a part of the publicly owned facilities of Houston's man made port.

C. W. Gilliam was down from his Utopia ranch yesterday wearing usual bland smile and telling of other "smiles" in a manner most enticing. We haven't figured out yet whether he was merely patriotically boosting for a home "enterprise" or whether he was trying to pull a pesky Republican trick to lure all the Democrats to the mountain wilds and make them forget the election. Beware of Republicans when they come bearing smiles.

Elsewhere will be found the announcement of Frank M. Finger as a candidate for Tax Assessor of Medina County at the November election. Mr. Finger was born and reared at D'Hanis and is a descendant of one of Medina County's fine pioneer families. He is favorably known over the county, and is well qualified to perform the duties of the office to which he aspires.

Elsewhere will be found the announcement of Judge H. E. Haass for re-election to the office of County Attorney of Medina County. The County attorney's office has come to be an important one, and Medina County is fortunate in having a man of Judge Haass' qualifications and integrity to fill the place. He has no opposition.

ARE YOU A PROGRESSIVE TEXAN?

Progressive Texans is an organization formed to develop the industries of Texas and help our manufacturers to help themselves. A manufacturer in your community means employment to your people and the consumption of the raw materials of the farmer who has worked under tremendous handicap due to the fact that our people would not buy his products.

We want you to join a club composed of the citizens of your own community pledged to the following:

1. To aid Texas agricultural and industrial progress by encouraging the use of Texas products.
2. To learn more about what products are manufactured in Texas and their uses and values.

By creating a demand for the products of your manufacturers, you are solving the greatest problem of manufacturing in Texas today, and that is the sales problem. It is unfair to ask a merchant to stock a product you will not buy. He will gladly stock them if you want them.

By joining the Progressive Texans at a cost of \$1.00, you are pledged to build up your own community and develop Texas. This entire fund will be used to better acquaint you with your local manufacturers and those of your state. Please fill out the coupon below, and bring or mail to this newspaper office, and a card and button will be sent you, showing your membership in this organization. If you will take care of Texas, Texas will take care of you.

Reduced 30 Pounds Never Felt Better

Safe Way To Lose Fat

Take the case of Miss Madeline Crowley, for instance, who lives in Little Rock, Ark. Just read her letter:

"I have used Kruschen Salts for one year—when I started I weighed 140 pounds—now I weigh 110 pounds and never felt better in my life."

That's the big reason a host of men and women take Kruschen to lose weight—as the fat goes you gain in health—skin clears—eyes grow bright—activity replaces indolence.

Take one-half teaspoonful of Kruschen in a glass of hot water every morning before breakfast—cut down on fatty meats, potatoes and sweets—a jar of Kruschen that costs but a trifle lasts 4 weeks—get it at any drugstore in the world—but for your health's sake demand and get Kruschen Salts.

TENNANT TO VOTE FOR C. V. TERRELL

Man Who Ran High Third to Cast Ballot for Incumbent

Overwhelming victory is assured Railroad Commissioner C. V. Terrell, his supporters believe, with the recent announcement of Roy L. Tennant, that he would cast his vote for Mr. Terrell in the run-off election.

Mr. Tennant opposed the present chairman of the railroad commission in the first primary, piling up a high vote which carried him to third place in the final count. Mr. Terrell is running for his second full term as a member of the commission. He carried over 185 counties with a total ballot that gave him an overwhelming lead over his closest opponent.

"I would like to express my sincere appreciation to Mr. Tennant for his announcement that he would vote for me in the run-off," Mr. Terrell said as soon as he read Tennant's statement.

"I want to assure Mr. Tennant and the great number of voters who supported him in the first primary that when I am re-elected, I shall continue to conduct my office with the same high purpose that I have followed in the past."

In his statement, Mr. Tennant said that he did not want to try to dictate to his friends but rather than give the impression of riding the fence, he was declaring publicly that his vote would go to Mr. Terrell.

During the latter part of the run-off campaign Mr. Terrell announced that he would make at least five speeches at strategic points over the state. More will be made if his duties at Austin permit. He will confine these addresses to outlining the functions of the railroad commission and the vital part it plays in the operation of the state government.

BUMBLE BEES TWILIGHT LEAGUE CHAMPIONS.

Coach Barry's Bumble Bees were crowned champions of the Twilight League, Tuesday, when they defeated the Blues in the final game of series, which wound up the League baseball season for 1932.

The Bumble Bees, managed by J. G. Barry, composed of mostly school boys must be given credit for their consistent playing throughout the season. Meehler who pitched practically all of the games for the Bees showed up very favorably on the mound and will be a favorable prospect for next year's high school team.

The League games created quite a bit of interest among the local fans and furnished good entertainment for the working people, as all games were played after working hours. It also developed some of the players into fair players who will be good prospects for both the town and high school teams.

DEVINE NEWSLETS

From The Devine News.

CORN MARKET OPENED AT TWENTY CENTS.

As per announcement made last week, the corn market opened in Devine Friday, August 12, when the big sheller and elevator turned from the old crop, made hasty repairs of the mill and went to work on the new crop. According to the figures, over 240,000 bushels of corn were shelled and shipped the past season. Only one car of new corn came in Friday, but more came Saturday. Mr. Keller estimates the crop as one-half of last year's crop; much of it will not grade No. 2.

County Attorney H. E. Haass and daughter were here from Hondo Monday, the Judge attending Court—not a single case was tried, we believe, however.

FROM YANCEY.

Miss Dora Mae McAnelly who has been a student at C. I. A. for the past several weeks, returned home one day last week. She will probably return when the next term begins.

Mrs. M. H. Gronewald and daughter, Mrs. Bailey and children, and Mrs. Charlie Gronewald, who have been residents in California for some years past, arrived last week and decided to remain here provided they can make the proper arrangements.

We are very sorry that Mr. J. G. Weekley is on the indisposed list, and hope he will soon be able to attend to business.

Messrs. T. H. Roensch, L. F. Faselcer and C. J. Wiemers were on the Rio river fishing last week.

Mr. L. F. Faselcer is very busy making sorghum molasses of a very good quality.

Mr. and Mrs. J. P. Nixon are enjoying a visit from their mothers, Mrs. Fannie Nixon of Luling and Mrs. Clara Neal of ConCan.

Prof. Carl Staben is enjoying an extended visit from his mother, who arrived from California recently and will stay here for some time.

The little baby daughter of Mr. and Mrs. J. H. Null has been quite sick during last week and has been under treatment of Hondo physicians.

Mr. and Mrs. Charles Heiligman, Jr., are proud of a baby boy, born Aug. 8th. Papa Heiligman is proud of the youngster.

Mr. and Mrs. Aubrey Evans came from San Antonio recently. They will probably remain here during the remainder of the summer.

Saathoff Brothers have opened up a business in connection with a garage and can take care of people's wants in the repair line of cars.

Farmers have begun gathering corn; some of it will be put on the market, but on account of low prices a good deal of it will be stored.

Mr. Louis Ward and family were week-end visitors here.

Mrs. Charles Heiligman, Sr., has been laid up for several weeks with a bad limb, but has improved sufficiently to walk about the room.

MELLOWED 80 MILLION YEARS

While brutes were hatched from eggs in OKLAHOMA

Ancient as they were, the span of time in which these strange egg-laying brutes lived covers only a small part of the history of the Cambro-Ordovician oil pool in Oklahoma. This oldest of Mid-continent crudes, carefully refined and blended in the great Sinclair refineries, becomes Sinclair Opaline Motor Oil—a product of 80 million years of Nature's priceless mellowing and filtering. Sinclair puts the crown touch of quality on Sinclair Opaline by freeing it from wax and non-lubricating petroleum jelly at as low as 60° F. below zero. Try a crankcaseful—note how this oil lasts in the heat of fast driving!

CASTROVILLE CULLINGS.

Castroville, August 24, 1932

Mr. William Pierson of Austin was the guest of his relatives, Mrs. Brieden, and family the past week.

Mrs. Waugh of San Antonio, who is now at work on a "History of Castroville", was collecting material for her book in Hondo and Castroville Friday.

J. T. Lawler and Harry Lawler of Alamo Heights motored over to Devine Tuesday, calling on the Editor of the Devine News.

Miss Irma Mangold spent the weekend in San Antonio, and on Sunday joined Mr. and Mrs. Leonard Mangold, Mr. and Mrs. Leonard Brieden, Mr. and Mrs. Ed. Schreiber, Mr. and Mrs. Max Grossenbacher and Mrs. Biediger of San Antonio, on a trip to New Braunfels.

The Rev. Dean Beckman arrived Monday evening from Fredericksburg to spend a few days in Castroville as guest of the Rev. J. L. Meyer, and to assist in the services on the 25th.

Mr. Geo. F. McCuller and family of Kingsville are spending a few days at the Haas Park.

Miss Lucy Monkhouse is visiting here this week.

Mr. and Mrs. Ralph Reus, Miss Pearl Tschirhart and Mr. Oscar Biediger made a trip to Galveston and Houston, reporting a wonderful time.

Mr. and Mrs. Chas. Suehs were San Antonio visitors one day last week.

Mr. and Mrs. Alex Bohl and family of Devine visited B. FitzSimon and family here Saturday.

Mr. and Mrs. James FitzSimon are spending a few days visiting Mr. and

Mrs. Ernest Bendele and family.

Miss Adele Mechtler, Miss Johnston, Messrs. Vastine Hill and Quinn Ney attended the dance Saturday night.

Mr. Herbert Tondre attended the K. C. meeting in San Antonio Tuesday night.

Misses Joyce Mangold and Lillian Long, and Messrs. Russel Green, Ed. Riche and J. E. Blackerston visited Miss Corine Mangold Saturday evening.

Mr. and Mrs. John Petch visited in Castroville Wednesday.

MARRIED.

Miss Lydia Hardt was happily married to Mr. Anton Haby, August 23, 1932. The only attendants were Miss Blanche Haby and Mr. Fred Marlsche.

ZION'S LUTHER LEAGUE.

On Sunday evening, August 21, the Zion's Luther League of Castroville had their third meeting. The meeting was opened by a hymn and prayer led by Rev. Kozack. After this the following program was rendered:

Organ Solo—Mrs. K. Kozack.

Duet—Mrs. C. C. Bippert and Miss Renata Wurzbach.

Lecture—Paul Geiger.

Solo—Mrs. C. C. Bippert.

Reading—Alma Geiger.

In the business meeting our secretary, Miss Renata Wurzbach read the minutes for both of the previous meetings. Mr. Reinhart Bippert was appointed reporter. The next meeting will be on the third Sunday in September. The meetings will now begin at 8:00 o'clock instead of 8:30.

At the next regular meeting the League will render a program for the entire congregation. The members of the League are asked to come Sun-

day, August 28, to practice for certain numbers on the program.

After the meeting an enjoyable time was had by all, playing various games under the open sky.

The following members were present at the meeting: Mr. and Mrs. C. C. Bippert, Mrs. K. Kozack, Renata and Tusnela Wurzbach, Herman, Albert and Johnny Reus, Elvira, Clarence, Reinhart, Paula and Augusta Bippert, Paul, Hulda, Laura and Alma Geiger, Harry Bongers, Henry Lehr, Viola Kriewald, Meda Haas, Lorine and Elrine Stolte, Ruby Bendele, Lillian Mangold and Inez Biry.

We are sorry to have to report such a small attendance. Where are the rest of our youth?

AUGUST KOENIG DEAD.

Mr. August Koenig died on the morning of August 18, 1932, after an illness of a few weeks. At 9:00 o'clock A. M., August 19, 1932, his mortal remains were buried in the Catholic cemetery, his pastor, Rev. Jacob Lenzen, performing the last sad rites. The active pallbearers were six of his nephews: Harry Hans, Thomas Hans, Fred Wernette, Leo Jungman, Joe Wurzbach and Alfred Kaufman. The honorary pallbearers were: Louis Mangold, Albert Biediger, Andrew Haby, Ed Sittre, George Christilles and Louis Burrell. His brother members of the St. Louis Society, of which he had long been a member, accompanied his remains in a body from the home to the church.

The deceased was born October 22, 1865, at Haby Settlement. In May, 1893, he was married to Miss Mathilde Beck. She died in April 1909. In April 1910, he married Miss Della Hans who survives him. He is also survived by one half-brother, Mr. Joe Spettel, and numerous other relatives.

Besides his relatives he is mourned by numerous friends who had known him throughout his quiet, peaceful life among them. May he rest in peace.

CARD OF THANKS.

I take this means of thanking my friends and neighbors for their many acts of kindness and expressions of sympathy in the last illness and death of my beloved husband. Be assured of my lasting gratitude.

Yours in sorrow,
Mrs. August Koenig.

BIRTHDAY PARTY.

A large group of relatives and friends gathered at Haas Park on the Medina River Sunday evening, Aug. 21, to celebrate the birthday anniversary of Miss Octavia de Montel. Mrs. Robert de Montel was hostess of the picnic.

Following a swim, a sumptuous supper of fried chicken, sausage, potato salad, pickles, sandwiches, potato chips, ice cream and cake and iced tea, was served under the pecan trees.

Those present were Mrs. Robert de Montel and the honoree, Miss Octavia de Montel, Jimmy and Charles de Montel, Mr. and Mrs. Oscar de Montel, all of Castroville, Judge and Mrs. H. E. A total of 17,132 different farm families have been coached in better ways of home making, chiefly making the living at home, in 11 North Texas counties since last December. Home demonstration club women have extended the work of the county home demonstration agent in an attempt to help 85% of the farm population this year. The same plan is working in all parts of Texas.

New Type Radio O. K., Says Capper

Senator Arthur Capper believes that the development of the new air cell radio receiver offers the final solution to the farmer's radio problems.

"I find great interest among rural people in the new type air cell receiver for farm use," says the Senator. "It seems to offer the final solution to satisfactory reception on farms not served by power lines."

"This new type of air cell receiver seems to compare favorably with the latest developments in electric sets in both quality of reception and trouble-free service. I believe they will result in a rapid growth of the American radio audience and in a much wider use of radio among farmers."

The principal advantages of air cell receivers over previous types of battery sets, in addition to tone quality comparable to modern electric radio receivers, is the elimination of storage batteries and the expense and trouble of frequent recharging which they entailed.

Using a revolutionary type of "breathing battery" for "A" current, the new sets are said to give the rural dweller the same type of radio service previously enjoyed only by persons in cities where electric current is available.

Although developed a little more than a year ago, the new type sets for farm use are today being made by all leading radio manufacturers.

Hints for Homemakers

By Jane Rogers

AN excellent way to remove grease spots from wall paper is to cover the spots with powdered French chalk. Leave it on for twenty-four hours, then brush off. If the spots have not disappeared, repeat the application, laying a piece of blotting paper over each of the chalked spots and pressing with a warm iron.

To preserve the freshness and flavor of fresh fish over a period of two or three days, sprinkle the inside with sugar, keeping the fish in a horizontal position so that the sugar may penetrate as much as possible. Use one tablespoon of sugar to a five-pound fish.

Mrs. Bascom says this call was worth \$1,000

Mrs. Clyde Bascom left her dinner cooking while she weeded the garden. Just as she re-entered the kitchen, the kerosene stove exploded.

Her first move . . . the telephone.

"Central! My house is on fire!"

And Lucy Adams, at the switchboard, did the rest. "Too far out for city water," she reasoned. Then, quickly, she called a half dozen men who had cars. They sped to the scene. Water from a cistern saved the Bascom home.

Next day, the operator again "plugged in." It was Mrs. Bascom.

"Lucy, you sure got help out here in a hurry. That call was worth \$1,000 to me. Don't know what I'd have done if the house had burned . . ."

Day or night the telephone is ready for your calls. It may be an order at the store . . . a call for the doctor . . . your house on fire . . . or, just to visit with neighbors.

Your telephone may be worth a nickel today . . . a quarter tomorrow . . . a thousand dollars next week. You can buy few things which cost so little and are worth so much.

A true story.

SOUTHWESTERN BELL TELEPHONE CO.

Mrs. Joe Rogan, 4-H pantry demonstrator of the Berry Creek Home Demonstration Club in Williamson county has passed on to the neighbors what she learned in a meat canning school last fall. She has given 23 canning demonstrations in which 3600 containers of meat were put on pantry shelves.

"Enough soil was saved during the first rain to pay for building terraces on my brother's place," states Walter Cardwell of Lockhart who says that a 4-inch rain failed to wash away any appreciable amount of soil while bordering fields showed a heavy wash.

PROSPERITY AND THE RAILROADS

American railroads are NOT dying institutions. On the contrary they are now, as they have been for three-quarters of a century, the backbone of business and industry. When the railroads prosper, all business and industry prospers and when they are not prosperous the entire economic structure of the nation suffers.

It should be remembered that the railroads are called upon to handle about 75 per cent of the total transportation requirements of the nation. In this connection it is interesting to note that of the remainder, two-thirds, or 15 per cent of the total, is handled in deep-bottom boats on the Great Lakes.

It also should be remembered that railroads provide employment for more than one and one-half million well-paid wage earners and allied industry, dependent on railroad purchases, provides gainful employment for another million ultimate consumers of the products of other business and industry.

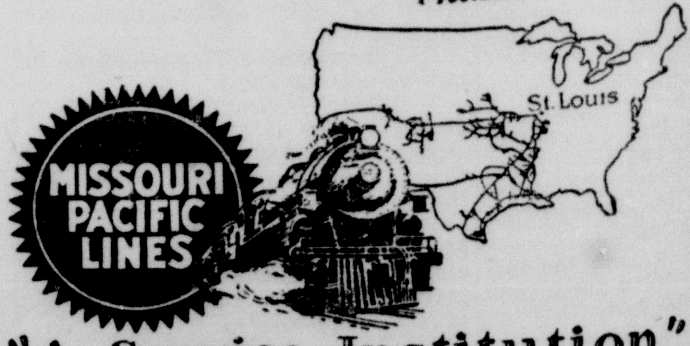

It follows, therefore, that one of the most important factors in bringing about a return of normal, prosperous conditions in this country, is to restore the railroads to their former position of leadership and financial security.

Railroads must have a living wage if they are to continue to serve America adequately and satisfactorily and they must be placed on a parity with their competition with regard to regulation and taxation in order that they may continue to lead the way in the advancement and development of the entire country.

For more than half a century the railroads have been the economic shock absorber for the nation. They need the sympathetic help now, as never before, of every intelligent, well-informed person in the country.

I solicit your co-operation and support.
